

# PRIVACY RISK

Adapted from Jack Jones' and Jack Freund's Factors Analysis of Information Risk (FAIR)

The Hoepman Privacy Design Strategies map to the risk factors and can directly reduce those factors as well as have an indirect influence on the other factors.

R. J. Cronk and S. S. Shapiro, "Quantitative Privacy Risk Analysis," 2021 IEEE European Symposium on Security and Privacy Workshops (EuroS&PW), 2021, pp. 340-350, doi: 10.1109/EuroSPW54576.2021.00043
